**THE DEMAND FOR REVOLUTION,
REPARATIONS,
AND THE RIGHT-TO-RETURN**

Presentation by

BROTHER BOB BROWN

Founder of the Pan-African Roots

**Long Time Organizer for the All-African People Revolutionary Party
Co-Plaintiff in the Chicago Slavery Era Disclosure Lawsuit**

This Presentation argues that the Reparations Movement began, dialectically, at the very moment that the slave-trade, slavery and slave-like practices began. It will offer a two-thousand year time-line that documents when and where these crimes were committed, and who, which countries, churches, companies and families, committed them. It will document their unjust enrichment by and through their historical and continuing participation in these crimes. It will demand reparations for these historical and continuing crimes, including the right of all Oppressed Peoples to return to, and reclaim their ancestral lands. It will suggest that this demand can only be won, ultimately, through revolution, through a radical transformation and redistribution of wealth and power in Africa, the African Diaspora, and the World. It will inspire a new generation of youth to join the Reparations Movement!
